Pregnancy Category

Not classified

Mode of Action

Fluoride salts: Naturally occurring component of tooth enamel, it is used to enhance the strength of teeth by the formation of fluorapatite. Thymol: provides antimicrobial activity because of its phenolic structure. Methyl Salicylate: Used as a flavoring agent. Eucalyptol: Provides pleasant fragrance & flavor. Menthol: Gives cooling sensation

Storage condition

Store in a cool & dry place. Keep out of reach of children. Cold weather may cloud this product but its antiseptic & anticavity properties are not affected.

Interactions

There are no known drug interactions and none well documented
