

Ziskavit-M

Multivitamin & Multimineral

Description

Ziskavit-M is film coated multivitamin-multimineral tablet.

Composition

Ziskavit-M Tablet: Each film coated tablet contains: Vitamin A Acetate USP 1.50 mg, Vitamin D USP 10.00 mcg, Thiamine Hydrochloride USP 1.50 mg, Riboflavin USP 1.70 mg, Folic Acid USP 0.40 mg, Nicotinamide USP 20.00 mg, Pyridoxine HCl USP 2.00 mg, Ascorbic Acid USP 60.00 mg, Calcium Pantothenate USP 10.92 mg, Cyanocobalamin USP 6.00 mcg, Vitamin Acetate 15.00 IU, Ferrous Sulphate BP 50.00 mg, Potassium Iodide USP 196.00 mcg, Manganese Sulphate BP 1.00 mg, Cupric Sulphate BP 2.00 mg, Potassium Sulphate BP 11.14 mg, Zinc Sulphate BP 37.03 mg.

Indications

Deficiency states in acute and chronic disease. Conditions regarding specific support: pregnancy, lactation, menopause, during treatment with antibiotics. The comprehensive formulae of **Ziskavit-M** assures liberal amounts of important vitamins, minerals and trace elements needed by the body during periods of increased energy requirements such as in disease and convalescence.

Dosage and Administration

One tablet daily, or as advised by the physician.

Contraindications

Supplemental vitamins and minerals should not be prescribed for patients with haemochromatosis or Wilson's disease. Hypersensitivity to any of the active ingredients is a contraindication. Excessive doses of vitamin A and D can lead to hypervitaminosis. When multivitamin preparations are prescribed allowance must be made for vitamins from other sources. This is particularly important during the first trimester of pregnancy when large doses of Vitamin A may be teratogenic. Iron and Zinc chelate with tetracyclines and absorption of all three agents may be impaired.

Precautions

Ziskavit-M may be used in patients being treated for Parkinson's disease with a Levodopa preparation which includes a dopa-decarboxylase inhibitor (e.g. Carbidopa, Benserazide). But precautions should be taken. Pyridoxine acts as an antagonist of Levodopa.

Side Effects

Multivitamin preparations with ordinary doses of component are usually nontoxic.

Packaging

Ziskavit-M Tablet: Each carton contains 3x10's tablets in blister pack.
